A FEW WORDS IN SEASON.

We hope by this time, that possibly the unfortunate candidates in the election two weeks ago and their friends have had time to cool off and give maturing to their thoughts and proper consideration. The Republican victory in this country was calculated to throw fellow off their guard. Democrats were lifted out of their boots as it were by something like a cyclone, but it could not be checked. It seems like everything went under the log cabin, the returns from the rural districts, the returns from the cities, the tickets disclosed nothing. The candidates performed hard but a lot of the fellow didn't do what they said, they would do, vote under the Fusion ticket. That's where we lost. Who was to blame for it? The Lord only knows, but it was them other fellows. Some sharp criticisms and harsh reprisals have been hurled at the Fusion party, and it is a treacherous to the party and to God. God knows we did what we could to help the thing along. The truth is that sometimes we hardly knew "where we were at." One fellow here was making a magnificent suggestion at one point, out-yonder was another. It was impossible to follow them all. Because a couple of them had something else to do, besides giving it who's right regulation of county politics. However as we have said, we did what we could, to help the boys get elected. So we suppose did all other fair minded Democrats. But the situation was critical from the beginning.

The Democrats six months ago were helpers as they stood with the gold bug and the Fusion. Poor old Gold, the other. They could not get the aid of one, but with the promised assistance of the other, they went into a fight, for the county offices. The fight was to down the Republicans by an artful combination which in the beginning, promised some hopes of success, but in the end proved disastrous. That's the fact.

This blunder can't be laid to any one man's door. The Fusion was a blunder, it tended to confuse. The voters did not understand the ballot. They could not vote intelligently under two devices. Moreover a large number, did not fail under the Fusion ticket. This is all of it. Hereafter we connect the Democrats to stand by the party, device, and to consult wise leaders.

The news is always open to legitimate criticism, but we do not mind slipping. We do not have to parade our Democracy to the world. In the future we shall go along as in the past, attending strictly to our business. Consulting the success of the party, as we see it.

Miss Lelia Henley, of this city, has announced herself as a candidate for State Librarian. Miss Henley is a woman of exceptional executive ability, and is in every way worthy of the position. She has served two terms as postmistress in this city by appointment under Mr. Cleveland and we venture to say the town never had a better one. Everything about the office was kept in perfect order, the minutest detail was attended to. Her conduct in the Legislature as will be done and presents her claims to that body of distinguished men, we think she will make votes as none of her opponents can or will. We predict success for her.

Jim and Charlie Durham will invest this fall \$500 in sheep and the like. Jim says he is going to plant fifty acres in land and let the sheep have a free range to move on themselves. High prices stimulates trade, stimulates farmers and helps everybody. It's not the question of what brought about these high prices, but the thing to do now, that they are here, is to take advantage of them and get our share of the prosperity. That's what wide-awake farmers like the gamblers we mean, are doing and do the thing for all farmers to do.

The Democratic party won a victory in Greater New York last week which ought to add something to its strength in the nation in 1900. There was a loss there to the Republicans of \$38,000 votes. They claim that it was due to local causes, but it was a thrust at Republican rule in the east and a rebuke to the policies adopted by that party throughout the country.

Tua Owenbrough Messenger is wanting the next legislature to change the election law. Almost before the ink gets dry on the Statute book, somebody is ready to have a change made in the law. Better let it alone. The people can learn to vote under the present system as well as any other and they are doing it.

EVERYBODY was wondering last Monday what Morris Beard wanted with a Cloverport brick plant. His bid of \$14,000 came like a bombshell. No one was looking for it. Now Morris If you really want a brick plant come down and we'll see that you get one. This town needs a man with your nerve.

Captain Bill Ellis is the winning card for Governor of Kentucky. A practical business man, with ability,qual and wit, will make such a governor as Kentucky has not had in years. Bill Ellis? Why this very name is a Democratic inspiration.

NEWSPAPERS when a fellow is seeking office at the hands of the people of Kentucky, he will fight like a "cow-on-the-hoof." Davy Crockett, Andrew Jackson, a way to cure it here in Breckinridge.

Warren bought one half of the Nicklefield tract of the Fenwick estate at \$1,610. The Bank of Hardin's debt interest and costs.

Sheep Values Contrasted.

The difference in the value of sheep under Free-Trade and Protection is shown in the results of an assignee's sale of the estate of Thomas McElroy, a banker in Jefferson County, Ohio, who had given particular attention to sheep husbandry. This sale took place in October, 1894, a few weeks after the passage of the Wilson bill, and the animals were all fine specimens.

The files of the Ohio "State Journal" show that forty ewes were sold for 69 cents each, 30 lambs for 20 cents each, and one registered buck for 50 cents. Other lots chosen from the flock sold at similar prices, and all were fine merino sheep.

Secretary Miller of the State Board of Agriculture says the "Pine Tree" is "authoritative for the statement that to-day ewes of the same grade are worth \$1 to \$4 each, lambs \$2 to \$50, and registered bucks from \$15 to \$25. A few days ago the Insurance Association of Medina County made an allowance of \$2 each for common breed lambs. This is what the Republicans have accomplished by a restoration of the Tariff on sheep.

The Republicans had a big rally here Saturday night, attended by the surrounding community, of course they had no brass band to lead the parade, but had a number of six horns, cost nothing, and now make them a racket just the same. They also had a band beautifully decorated with lights, made of carpet rags, soaked in coal oil, stuffed in oyster cans and tied on the ends of beam poles. V. B. Burton, sheriff, etc., closed the meeting by addressing them with a short political speech.

The meeting was to be the center of attraction here every Sunday evening or shine, big, little, old and young, married and single all take a hand. They have a nice level place for the diamond, of course out side of this it is a little sidling and cut up with gullies, but they play ball just the same and it takes a champion nine to tear their sign off. John Mattingly is chairman of the organization.

They marched slowly up the aisle, the aisle which was completely decked out with flowers, evergreen, etc. The attire was of beautiful blue cloth, trimmed in white silk, while the groom wore the usual black. The bride is the old daughter of John Hinton and has many friends here while the groom is a prosperous farmer of Perry County, Ind. They left Thursday morning for the home of the bride, where they will make their permanent home. May suppress forever able with them is the wish of the writer.

Scrofula

A deep-seated Idiopathic disease which the mineral mixture in the world cannot cure. *S. S. S.* (a pure vegetable) is a great elixir remedy for blood diseases and has no equal. Mrs. V. T. Buck, of Delaney, Ark., has Scrofula and has been a patient of the time was under the care of the doctor who could not relieve her. A special doctor said he could not cure her, but he filled her with arsenic and potash which only increased her trouble and her constitution. She then took nearly a quart of *S. S. S.* and drank the medicine and drank them until she was well. She then did not have her trouble. Some one advised her to try *S. S. S.* and she very soon found that she had a remedy at last. She says: "After taking one dozen bottles of *S. S. S.* I am now in full health and I would not be in my former condition for two thousand years. I am glad to say that up to date in my system, the scrofula and arsenic, *S. S. S.* drove the disease out through the skin, and I was permanently relieved."

A Real Blood Remedy.
S. S. S. is a powerful tonic to cure Scrofula, Rheumatism, Consumption, Blood Poisons, or any disorder of the blood. It does not simply a specific tonic, but a real blood remedy, but takes a real blood remedy.
